

## Membrane Training

### City & Guilds Assured

This course is a mixture of class-based presentations and on-site workshops. Suitable for individuals who have experience dealing with CIP and membrane technology. Topics cover membrane types & construction, their operation and use, and how to store and clean them.

Modules covered within the course are:

- Membrane types & construction
- Types of filtration
- Membrane function
- Process flow
- Membrane cleaning
- Membrane preservation
- Key Performance Parameters: Baseline Pressures, flowrates & fluxes
- Membrane storage

Flexible learning environment.

Virtual or Classroom – based options available.

Certificates of training issued to all successful participants.

There is no formal assessment for this course.
